WORK EXPERIENCE

Energy Aspects

May 2024 - Nov 2025

Analyst

London, United Kingdom

- Developed and optimised a global multi-asset demand forecasting framework covering 90+ countries and 10+ fuel types, conducting scenario analysis to quantify the market dynamics and policy impacts on energy trade flows
- Delivered quarterly regional reports by synthesising global macroeconomic indicators and industry policies, resulting in high-accuracy supply-demand (S&D) outlooks that clients used to support trading and strategic decision-making
- Managed and responded to ad-hoc client inquiries by providing structured, data-backed analysis; collaborated with cross-functional teams to align S&D forecasts for report updates, ensuring high-quality outputs for stakeholders

CTRL SPACES Energy Solutions Ltd. (Energy Start-up)

Jan 2024 - May 2024

Energy&Sustainability Analyst

London, United Kingdom

- Analysed property energy usage data across 70+ tenant companies at Chiswick Park to identify efficiency trends, supporting operational and energy optimisation initiatives and delivering weekly performance and sustainability reports
- Prepared BREEAM assessment documentation and monitored sustainability performance, including Scope 1,2,3 emission with the aim to improve property efficiency, cut carbon footprint, and ensure compliance for stakeholders

Petroineos Trading Limited - PetroChina PCIL

Jul 2023 - Sep 2023

Summer Trade Support Analyst

London, United Kingdom

- Supported trading execution by conducting comprehensive global distillate market analysis, focusing on tracking supply and demand drivers, price volatility, refining margins, and macroeconomic indicators impacting trade flows
- Designed a dynamic demand model that improved historical market analysis accuracy by 12.5%, enabling the team to better assess risk exposure and refine backtesting strategies for refined oil products

JingDong E-Commerce Company Ltd

May 2021 - Jul 2021

Strategy & Operation Intern

Beijing, China

- Led the environmental Trade-in project with supply chain and production teams for Chinese largest trading company of electronic product recovery (Aihuishou) to raise user conversion rate by 50%
- Conducted market research on customer behaviour and attitude toward the trade-in scheme and developed information visualizations in Excel to boost the information retrieval rate by 20%

Tencent Technology (Shenzhen) Company Ltd.

Mar 2021 - May 2021

Business Development Analyst Intern

Shenzhen, China

- Built the platform ecology model from 0-1: modeled the online delivery and the profitability prediction of Tencent product, reported 50+ pages of strategic solutions for the online education industry
- Contributed to a 17% increase in app download. Invited 300+ social influencers in 13 industries to maintain cooperation and assisted CRM gifting initiatives, delivering weekly analysis& presentations
